### Date

January 2024

## New line. Fast connection. Your benefits.

# From Dresden to Prague in just **one hour**.

## Benefits in Germany

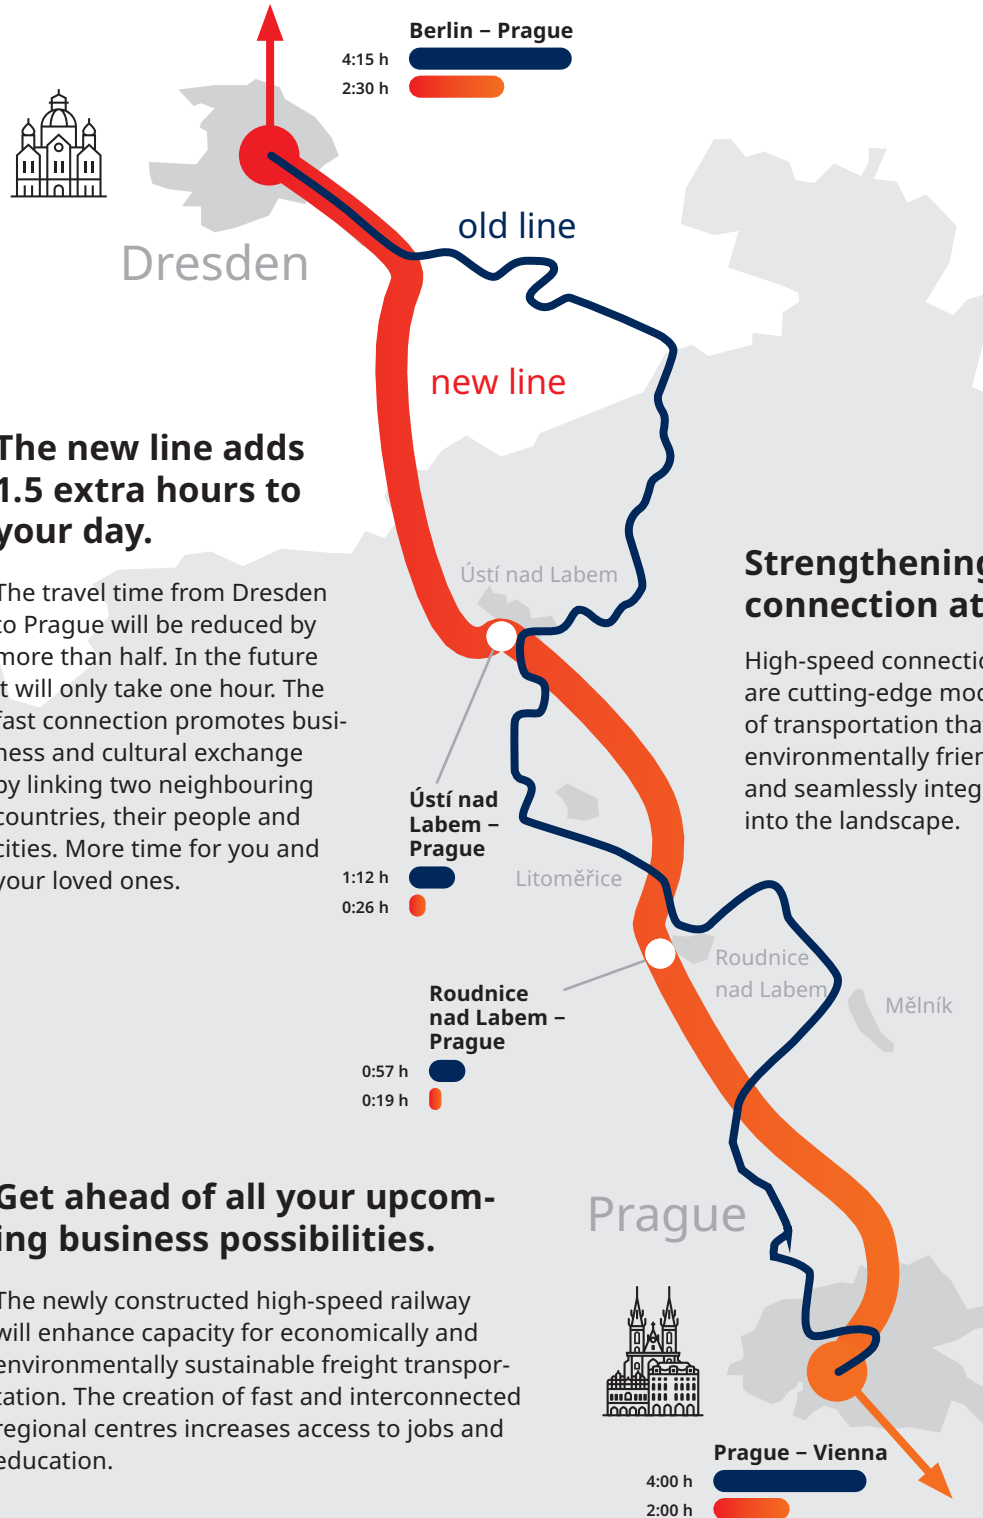

Exchange of skills, knowledge and goods between markets is about to accelerate. Experience new cultures easily, by traveling comfortably and safe and sound. For travellers in the Elbe valley: The new line means better performance and more reliability.

## The new line adds 1.5 extra hours to your day.

The travel time from Dresden to Prague will be reduced by more than half. In the future it will only take one hour. The fast connection promotes business and cultural exchange by linking two neighbouring countries, their people and cities. More time for you and your loved ones.

## Get ahead of all your upcoming business possibilities.

The newly constructed high-speed railway will enhance capacity for economically and environmentally sustainable freight transportation. The creation of fast and interconnected regional centres increases access to jobs and education.

## Strengthening the European connection at high speed.

High-speed connections are cutting-edge modes of transportation that are environmentally friendly and seamlessly integrated into the landscape.

High-speed lines serve as time-efficient alternatives for shorter-distance flight connections. Effortless advantages to people's lives will come.

## Benefits in Czechia

Fast connections of the regional centres with the capital will boost new job, living, and business opportunities. The comfortable new way of travelling becomes accessible to everyone. Travelling by train is one of the most environmentally friendly modes of travel.
